*It is our expectation that all students will achieve – No Exceptions, No Excuses*

August 19, 2020,

*RE: All Remote Start to School Year*

Dear Parents/Guardians/Employees,

Due to the COVID-19 crisis, Governor Murphy has given school districts and charter schools the flexibility to reopen schools for the 2020-2021 school year with 100% remote instruction as opposed to in-person (Hybrid) instruction.

Based on recommendations from the school's administration and re-opening committee, the **Golden Door Charter School Board of Trustees approved a plan to start the 2020-2021 school year with 100% remote instruction.** The hybrid model of instruction, which included some in-person instruction, will not be implemented at the start of the new school year.

This decision was made with the safety and well-being of our students/staff as our main priority. Further consideration was also given to the fact that the majority of schools in Hudson County will be going fully remote as well. We will reassess the school's ability to safely re-open for in-person (hybrid) instruction *by Monday, October 5, 2020.* Additional details regarding remote instruction will be shared with school stakeholders in the coming days once they are finalized.

We appreciate your patience and cooperation as we work to implement our reopening plan over the next several weeks.

Sincerely,

*Brian Stiles*
